

Biology Science

It will form a creature of a known organism.I will show you how.It was only baby when it was formed.I will form babies.I was known to me as Organism.I will find it out.

Sinister strikes on baby will happen if not collapse the brain it will collapse you forever.

I was known to mankind as Author Biology.
It was known to certain enemy to my own the Devil.
I was to kill him with no must have.

Author Biology the maker of the book.
It is mine the baby will sit.I was to be known professor of Biology to my own babies.I will find a cure against black skin people.
It will be cured to be white.

Biological misconception
It will find a cure by itself.
Biology Sentry
It was the crea.

Crea is a known form of organism.It will spread every time you eat,train and sleep.The Crea will form a cyst.It will form into Tissue.

Crea

What is crea?It was known to be the smallest organism.

Crea and Tissues

Crea will form a cyst into a tissue.What is cyst?Cyst is multiple smaller creas than crea.

Crea and mature owning
Crea will find it's way and die. When mature it crea's again.

Crea will follow with new crea.

Crea and multivitamin
Crea will grow bigger in size and maturity.

Crea and protein
Crea will grow blocks of crea.

Crea and amino acids
Amino acids will form with protein.

Crea and creatine
Will double the force within. Will grow.

Crea and glutamine
Will be nicer and gentler.

Will it form cyst now? Yes.

Cyst
Cyst is a known modifier of crea. I will show you.

Crea and Creatoria
A war between creas.

Crea will follow a modifier after or without war.

Intovertical crea
It will invert situations.

It will sober you if you drink protein.Crea will be protein.Protein
will be formed by milk crea.It will form crea when known to me.It
will form crea blocks.It will sober you if you have blocks.I will
show you.

It will form a cyst of happy matter and grow with protein.
It will form a cyst of happy matter and grow with glutamine.

Cyst of glutamic acid.1
Cyst will form of glutamic acid and eat your stomach.

Cyst of creatinic acid.2
It will destory your creatine reserves.

Creatine
It is a form of aminoacids found in rocks.

Amino acids
It will be broken down to these cells of sugar.

Protein
It was formed in milk and whey.

Glutamine
It was formed in grass.

Rogers Moon
Will Ford
Will I fond of you mister.No.
